CAREY

The icon in automated hospital operation

Always in action

CAREY is your experienced specialist for automatic goods transport in medical facilities, developed and designed for the highest hygiene standards.

It impresses with energy-efficient and low-maintenance components, always with a focus on the longest possible lifetime.

Safety

The security scanners used meet the high standards for personal security, in addition, a voice output and optical signaling devices guarantee the necessary attention even in areas accessible to the public.

Reliability

CAREY only uses proven and durable components. Lifetimes of more than 20 years are clear proof of this.

Variability

CAREY is available in different dimensions and drive configurations. This makes it possible to respond to different structural requirements.

Technical Details

Payload max.	500 kg / 1100 lbs
Speed max.	1,6 m/s / 5,25 lbs
Lift height	80 mm / 3 in
Navigation	Magnet or SLAM
Load	Ground contacts
Battery	Lithium battery or lead-gel batteries
Low maintenance costs due to	AC drives

Personal Safety

-  Protected integrated laser scanner with 360° surround view
-  Bumpers

Long range
with just one
charge
